MERN stack developer and Computer Science graduate who builds full-stack web apps end to end: typed React frontends, secure Express + MongoDB APIs and production deployments on Vercel. Built and shipped **Influence Platform**, a multi-role marketplace with campaigns, milestone-based digital agreements and email-code signing, in English, Urdu and Arabic.

EXPERIENCE

MERN Stack Developer Intern · Axcel

Jul 2026 – Present · Lahore

- Built **Influence Platform** end to end, a production marketplace connecting businesses with creators, journalists, speakers and experts.
- Designed a typed Express 5 + MongoDB REST API (MVC) with Zod validation, JWT cookie auth, Google sign-in, rate limiting and Helmet.
- Implemented role-based dashboards for 4 account types (Admin, Business, Manager, Talent) with verification and approval workflows.
- Shipped a two-party digital agreement flow with milestones, signed by business and talent using one-time codes sent by email.
- Delivered a fully translated UI in English, Urdu and Arabic (RTL) with dark mode and mobile-first design.
- Wrote API tests with Jest, Supertest and in-memory MongoDB; deployed frontend and backend on Vercel.

Information Systems Intern · Fauji Fertilizer Company (FFC), Commercial Tower

May 2026 – Jun 2026 · Lahore

- Worked hands-on in **SAP ERP** across the **Materials Management (MM)** and **Finance (FI)** modules using standard SAP T-codes.
- Followed the procure-to-pay flow in SAP MM (purchase requisitions, purchase orders, goods receipt, invoice verification) and how it posts into FI.

PROJECTS

Influence Platform

React · TypeScript · Node.js · Express · MongoDB

influencer-frontend-kappa.vercel.app · Frontend repo · Backend repo

- Marketplace covering advanced talent search, hire requests, campaigns, shortlists, agreements, milestone delivery and two-way reviews.

GlowBot: AI Skin Analysis App (Final Year Project)

- Analyses a photo of the user's skin to detect acne, dark circles, pigmentation and other concerns.
- Suggests solutions and ingredients (e.g. Vitamin C), recommends a diet plan, and finds nearby dermatologists with in-app appointment booking.
