SUMMARY

MERN Stack Developer and Computer Science graduate who builds full-stack web applications end to end with React, TypeScript, Node.js, Express and MongoDB. Built and shipped Influence Platform, a production multi-role marketplace with campaigns, milestone-based digital agreements and email-code signing, and delivered a client website with an admin CRM.

EXPERIENCE

MERN Stack Developer Intern Jul 2026 – Present
Axcel *Lahore, Pakistan*

- Built Influence Platform end to end, a production marketplace connecting businesses with creators, journalists, speakers and experts.
- Designed a TypeScript REST API with Express 5 and MongoDB (MVC) with Zod validation, JWT cookie authentication, Google sign-in, rate limiting and Helmet.
- Implemented role-based dashboards for 4 account types (Admin, Business, Manager, Talent) with verification and approval workflows.
- Developed a two-party digital agreement flow with milestones, signed by business and talent using one-time codes sent by email.
- Delivered a fully translated UI in English, Urdu and Arabic (right-to-left) with dark mode and mobile-first design.
- Wrote API tests with Jest, Supertest and in-memory MongoDB; deployed frontend and backend on Vercel.

Information Systems Intern May 2026 – Jun 2026
Fauji Fertilizer Company (FFC), Commercial Tower *Lahore, Pakistan*

- Worked hands-on in SAP ERP across the Materials Management (MM) and Finance (FI) modules using standard SAP transaction codes (T-codes).
- Followed the procure-to-pay process in SAP MM (purchase requisitions, purchase orders, goods receipt, invoice verification) and its postings into SAP FI.

PROJECTS

Influence Platform | React, TypeScript, Node.js, Express, MongoDB
Live: influencer-frontend-kappa.vercel.app | Code: github.com/hammadtoufeeq/influencer_frontend

- Talent marketplace covering advanced search, hire requests, campaigns, shortlists, agreements, milestone delivery and two-way reviews.

Skylure Jet | Freelance Client Project
Live: skylurejet.com

- Built solo a private aircraft acquisition and sales advisory website with Buy / Sell inquiry forms and an admin CRM to manage inquiries and send price quotes.

GlowBot: AI Skin Analysis App | Final Year Project

- Detects acne, dark circles and pigmentation from a skin photo, then suggests treatments, a diet plan and nearby dermatologists with in-app appointment booking.

TECHNICAL SKILLS

Frontend: React, TypeScript, JavaScript (ES6+), HTML5, CSS3, Tailwind CSS, React Router, TanStack Query, i18next

Backend: Node.js, Express, REST APIs, MongoDB, Mongoose, Zod, JWT, Google OAuth, Nodemailer, Multer

Testing & Security: Jest, Supertest, Playwright, Helmet, Rate Limiting, bcrypt

Tools: Git, GitHub, Vercel, Vite, Postman, VS Code, Claude Code, SAP ERP (MM, FI)

EDUCATION

Bachelor of Science in Computer Science Lahore, Pakistan
University of Central Punjab (UCP) | *CGPA: 3.29*
